Drained again by you and the summer
I'm shadows of monsters
In showrooms of glycerin glass
With amphetemine component/confidence
I'm spinning and turning, alone on St Valentine's

But I think that I hear celestial angels
They ricochet - sounds of moments of glory that
passed
Now my pipe dreams are calling
They sing to me sweetly
Of soul and sincerity

Let's reset our instrument dials
Cause somewhere the moment come
When we crash through the heart of the sun
Cause we are unstoppable now
Somewhere the night will explode
On the back of this wave that we rode
Because we are unbreakable now
Yes we are unbreakable now

Just how well do you know me?
I'm countless calamities
A malleable creature that speaks with a laudanum tongue
And I promise you deeply
The righteous will triumph over all adversity
Sometimes the melodies come
Leaving trails like stars as they fall
Sometimes I have to hold on
Cause I'm overwhelmed by this all

So reset your instrument dials
Cause somewhere our spirits will soar
As the audience started to roar
We are unswayable now
Can you feel the air under your wings
As a thousand throats started to sing
We are unbeatable now
Yes We are unbeatable now

Yes we are unbeatable now We are unbeatable now

Well my head is a box
Whose secrets are open
We're candyfloss children
Who live in a city the clouds
With the ghosts of dead robots
Where fiction and fantasy
Roll like a cannonball

So won't you reset your instrument dials
On moments when planets collide
Emerald city doors swing open wide
Cause we are unstoppable now
Hold your breath and the music will play
And we'll puff and just blow them away
Cause we are unbreakable now
Somewhere the moment will finally land
Oh as I pick the crowd up in my hand
To hear their roar echo away
To hear their roar echo away
Yes we'll hear the roar echo away
You know we hear the roar echo away

Echo away...
