(naydock, palladino)

With flu
I dream of you
In light as blue as neon when it's blue
Past visions of rolling hills
In movie stills
A panoramic stew
Above the scientific
Element, content
We spy the view

(chorus)

A fevers brought me close to you
In ways we can not be
A fevers brought me close to you
In ways we can not be
Even in memory

Sublime
In double time
We climb to where convention swerves and leans
Couple-a-beers
In a tent by sears
By a giant plastic nativity scene
In color dogs endure
Im sure
The light youve given me is green

(chorus)

I mouth petitions
Oh those soft renditions
Of the ones Ive come to lean on
For you
Again, in blue
And straightening a photographic dawn
May I experience
The sense of
Where I dream you when Im gone

(chorus 2x)
