Visit "[A Matter Of Time](#)" on MotoLyrics.com

Town clock stopped tickin, but it aint broken  
Got a problem that no one can define  
While that river keeps on a-flowin  
Hang on children, it's a matter of time

Angry child, impatience growin  
Waits with her father in that unemployment line  
While that river goes on a-flowin  
Hang on darlin, it's a matter of time

Scarecrow watchin years of growin  
With floods of asphalt creepin closer each time  
While that river goes on a-flowin  
Hang on brother, it's a matter of time

Sparrow, she's sleepin with now way of knowin  
What's goin on inside those telephone lines  
Below, that river keeps on a-flowin  
Hang on sister it's a matter of time

Some say God created man, his likeness showin  
I do believe they've got it backwards this time  
Somehow that river goes on a-flowin  
Hang on children, it's a matter of time

Tainted river flows to the ocean  
That coughs up on the shore it's poisonous brine  
Why don't that river just stop a-flowin  
Hang on children, it's a matter of time
