There ain't no devil
He's just a myth
But if there were he'd sound like this
There ain't no devil
He's just a lie
But if there were he'd make this cry
There ain't no devil
I know it's true
But if there were he'd scream like you
There ain't no devil
He's just a lie
But if there were he'd make this cry
Come on bitch, get in the box!
Dead metal
Red metal
Silver kind of scratching on your head metal
Metal man with feet of worms
Metal man with ivory germs

Metal man with with eyes of fire
Metal man with dark desire
There ain't no devil
He's just a myth
But if there were he'd sound like this
Hot metal
Shot metal
Itchy kinda bitchy twitchy twat metal
Metal man with balls of brass
Metal man he's drinkin' gas
Metal man with hot rod girl
Metal man, I rule the world
There ain't no devil
He's just a myth
But if there were he'd sound like this
It's just a lie
It's just a lie
