One more time before i feel defeat
One more time before im done
Everytime you get the best of me, make like you have
won
Chorus
What did i ever do to you (that's so bad?)
Always thought i could (take it back now)
Guess we'll always be playing this game
Now you've got everything that you want
Your calling constantly wanting to rock
Get away, stay away
I was always in the wrong
Suddenly i can see that the tables turned
Your smiles gone
Chorus
