Could someone take away, way, way, way  
All of this pain?  
Take your pictures of the wall  
Take your clothes off the closet  
What you gave me for our anniversary, girl  
Sorry I'm on it  
But none of it helped at all  
I mean it feels like the walls are talking  
Keep hearing you over and over again in my head,  
I can't change you up!

Bridge:

It's been years now since me and you have been  
together  
But I'm still hurting so girls, don't tell me I'm bitter  
And I'm dating for you I think I would be better  
But you're just stuck in my head, oh

Chorus:

Oh, I wish I could get amnesia  
So I wouldn't have to remember if they saw your name  
Cause when the tears start to follow my pillow,  
All I could think of was feeling this pain  
Someone take away, way, way, way  
All of this pain!

Oh, I'm happy that you've gone  
But I wish you never left  
Oh, I think I lost my mind, to get you here by myself!  
Is not who you are, it's no...  
It's time I move on, it's nothing strong!

Bridge:

It's been years now since me and you have been  
together  
But I'm still hurting so girls, don't tell me I'm bitter  
And I'm dating for you I think I would be better  
But you're just stuck in my head, oh

Chorus:

Oh, I wish I could get amnesia

So I wouldn't have to remember if they saw your name  
Cause when the tears start to follow my pillow,  
All I could think of was feeling this pain  
Someone take away, way, way, way  
All of this pain!

Baby, since you left me  
I've just been crying,  
Yeah I'm a man, I said I've been crying  
And I hate you for it  
And I love you but, I don't even know what to say!  
I'm going crazy right now  
I just need you in my life  
Damn, I need to forget you!

Chorus:  
Oh, I wish I could get amnesia  
So I wouldn't have to remember if they saw your name  
Cause when the tears start to follow my pillow,  
All I could think of was feeling this pain  
Someone take away, way, way, way  
All of this pain!
