(alexander/badlees)

(chorus)

There must be angels of mercy
Lookin down on me
Cause when I look up to the sky
I swear I see
Angels of mercy lookin down on me

Well, I know what I know
And you know what you know too
And I know that you know
Exactly what I think of you
And if I were you and you were me
I wouldn't blame you for not liking me
Even though we aren't enemies

(chorus)

Time can have a way of changin
Everything you think is right
And time can have a way of takin
Everything you hold too tight
So you search for explanations
And you find some now and then
While the angels
They're gettin impatient
With your experiments

(chorus)

I believe there's a power of healing
That comes with experience
I believe in believing your feelings
Even when they make no sense
But I believe that the way Im going
Im gonna end up too soon dead
Well, when asked to give my reasons
This is what I said

I might have used my education

If I gave a shit
I might have spoke for my generation
If I agreed with it
Now some say that Ive gone crazy
But I aint gone nowhere
Some say Im apathetic man,
But I don't care

I admit that Im a loser
I admit that I am scum
I admit I like cheap beer and women
As much as anyone
I don't worry about the future
Who knows what that will bring
I just wait and see what happens
And pretend I planned the whole thing
So lets see what tomorrow brings

(chorus 2x)
