Burning - i kill on demand
Sweet .16 in my hand
Await the command
Closer - and closer by far
Now i know who you are
The gemini scar

This is our world
This is our time
Grab a gun / come on let's go
This is our world
Burning bright
Come on let's end it all tonight

Bleeding - a sad sight to see
Pale and down on your knees
I'll set you free
Fire & flame draw the blood
Leave you dead in the mud
Now where is your god
