Baby boy, talk to me,
Tell me all your fantasies.
'Cause tonight I guarantee
You'll be feeling my all here with me.
One by one I can't come off
You've been so good, baby, it's paying off
Anywhere you want it, make it now.

Tonight is all your night,
Love me all if you like,
I'm here to satisfy.
Let's make, baby, baby making love

Grab my hair from the back,
If I moan, stretch it back.
Don't be afraid to lay it down,
Ain't no rules this time around.
Is help to you, what are we gonna do?
I'm your baby, let's do something new,
Do what you like, do what you please.
Come here, baby, give it to me.

Tonight is all your night,
Love me all if you like,
I'm here to satisfy.
Let's make, baby, baby making love.

Come here and
Make me scream, make me shout
Make me love it, turn me on.(x4)

Tonight is all your night,
Love me all if you like,
I'm here to satisfy.
Let's make, baby, baby making love
