Bring me flowers in the night  
Lay your cheek down by my side  
Leave my lovers full of need  
And my brothers full of greed

Hush now slowly come inside  
Feel your neck glow it's alright  
See me sunk here in too deep  
Bring me flowers when I sleep

Caressing hands warm like the sun  
I feel your breath inside my lungs  
Smile peacefully and take  
My hands on your face I won't awake

Are you here for a final goodbye?  
Did your soul fall or fly?  
Love disguising fluid within  
Your warm teardrops on my skin  
All my lovers disappeared

And the others were never here

I drank the ashes of desire  
Brought about and lost it all  
Gloomy chamber fading light  
Bring me flowers in the night

In every move is regret  
In every glance is hunger  
Flying hawk creeping snake  
You're closer (to each other) than you think  
Pale and shining hidden and revealed  
Plain words with strangling hands on the neck  
No more true words how to find  
How to cure what is cherished  
No more words

All your mercy is not melting with mine  
Did your soul fall or fly
