Once again here we go, off to another skinhead show
To meet with our brothers from across the land from
O.C.

To the fatherland

United together united as one to share good times and
Have some fun

We'll drink, we'll laugh, we'll have a ball bonded by
Blood we will never fall

Hail our brothers on the west coast from So. Cal to
Portland we propose a toast

Hail our brothers out on the East from Baltimore, Jersey
And D.C.

We salute our brothers out in Carolina and Jacksonville
Our southern alliance

Hail our brothers across the U.S. and all White
American
Nationalist's

Hail our brothers from across the sea from in Austria
and
Germany

To our brothers in the north out in Finland to England,
Spain, and Switzerland

From land to land and sea to sea a brotherhood that
will

Always be from Europe

To America united as one side by side, gun to gun
