The devil goes around
Stay inside, don't leave the house
The devil's watching you
He knows where he's heading to

The devil goes around
Be quiet, don't try to make a sound
The devil's after you
August thirty-one, 0 three fourty-two

The devil goes around
Down on the ground, she'll be found
The devil's calling you
A woman's body, age fourty-two

Buck's row
Hanbury street
Berner street
Mitre square
Miller's court
George yard
Maybe, maybe not...
