Download me, kill me  
I know, what I do  
Time dreams are everywhere  
They're watching you, too  
When life slips away  
Fear tastes the kill  
Death teacher find me  
They know what to do

Morpheus calls me  
My future is here  
Sleep not to dream  
The meaning unclear  
Down morphine passages  
Thoughtcybersex please  
To terrormorph images  
Of viral disease

No time in space  
No planet of hate  
All ethics fade  
In this silicon state

I stand at death's door  
There's no need to knock  
Hands of tomorrow  
Winding death's clock

Morpheus calls me  
My future is here  
Sleep not to dream  
The meaning unclear  
Down morphine passages  
Thoughtcybersex please  
To terrormorph images  
Of viral disease
