[Intro:]

Nice skirt, back at it, Calvin Harris, do it

[Verse 1: Laws]

Lemme design your fashion

Change gears till your eyes is matching

Go hard till I'm your passion

These others chicks thinking that they minds is gassed  
up

Yeah, I rhyme up with whatever

Swing by the crib, we can fuck or whatever

We can crush but you gotta get some colors on

Heart body, get your colors on

[Verse 2: Calvin Harris]

Now I don't care what you dress like or what you wear  
But please make sure baby, you've got some colors in  
thereNow it's all very well stepping out in black and white  
But you're no girlfriend of mine if you're doing that  
rightNow I don't care what you dress like or what you wear  
But please make sure baby, you've got some colors in  
thereNow it's all very well stepping out in black and white  
But you're no girlfriend of mine if you're doing that  
right

[Verse 3: Laws]

Lemme take you to my home, to my zone

To my bed, to the end and beginning of a friendship

You got me like what's your name? What's your size?

Are you mine? Are you some kind of black magic  
temptress?

I hope so 'cause my life's kind of ordinary

I need a woman, I've broken all sort of cherries

I need a tigress, I need a night prowler

I need a "Wanna try this? ", alright holler

I need a chick when I call, then she might follow

I got dope, if they raid, she might swallow

Don't be fronting mama, gonna bring some colors here

If your love is real, I might even scoop your mother  
Yeah, I'm a underground buzz around, thunder sound  
Cut you down, why you always sound like uh-uh-uh?  
When you going down, going to town  
Just deep breaths, start slowing it down, we got time  
ma

[Outro: Laws & Calvin Harris]

Get some colors on, we can crush but you gotta get  
some colors on  
You heart body, go and get your colors on  
Get some colors on, body paint, this is more than a  
cover song  
I wrote this so you'll never want another song  
Get some colors on, we can crush but you gotta get  
some colors on  
You heart body, go and get your colors on  
Get some colors on, body paint, this is more than a  
cover song  
I wrote my verse so you'll never want another song
