I don't bother if you're normal,
You don't bother if I'm straight,
Don't bother if I sleep with another
'Cause I don't bother if you wait.

You don't bother if I blame you,
I don't bother if you sin,
You don't bother if I save you
From an itch under your skin.

All my words will never tell you
How I feel and taste this time...

Lately everything is changing,
Lately I am nothing like me.
Lately I wish you would bother
Just a little bother for me.

You don't bother if I'm no houri,
I don't bother if you ain't dyke.
You don't bother if I don't hurry
To be the only one you'll like.

But when your heart is sick with illness,
And when I get a little queer,
Why don't bother 'bout me feelings
When our lips are getting near?

Getting near...
Getting nearer...

Lately everything is changing,
Lately I am nothing like me.
Lately I wish you would bother
Just a little bother for me.

Something's happened, something's wrong this day
'Cause I know I will bother if you don't stay.
Something differs, and no longer I'm the same
It feels like I'm slightly mad and you're gone insane.

I begin to bother if you're normal,
You begin to bother if I'm straight.
Now I bother if you sleep with another
'Cause only for your touch I wait.

Suddenly you bother if I'm a houri,
Suddenly I bother if you're a dyke,
And all of a sudden I'm in a hurry
To be the only one you'll like.

I don't bother if we get nearer...

Lately everything is changing,
Lately I am nothing like me.
Lately I wish you would bother
Just a little bother for me.

Lately everything is changing,
Lately I am nothing like me.
Lately I wish you would bother
Just a little bother for me.

You don't bother if we get nearer...
