Wake up, and smell the ashes  
Another day in hell  
This place, is cracked and brittle,  
But don't you wear it well?

You can't walk past a window and not wonder what it's  
like  
To throw your weight against the glass and fall into the  
night  
I've been on that ledge a thousand times with murder  
on my mind  
And I'll show you how to save yourself, one step at a  
time

Don't look down  
I'll show you another way out

Don't look down on me  
For what I've done to myself  
Safe and sound it seems,  
Didn't sound so safe at all  
And I'll be alright  
Because I've earned these broken bones  
Just don't look down on me  
I had to do this on my own

What now? Your pills won't keep you out  
Just fucked up in your bed  
Dry eyes can't wait for tomorrow  
To hide it from your friends

You asked me for a favor as you stretched to kill the  
light  
"Load one in the chamber, let the lead kiss me  
goodnight"  
I've been in that bed a thousand times with murder on  
my mind  
I'll show you how to save yourself, one step at a time

Don't look down  
You're only fucked if someone finds out

Don't look down on me  
For what I've done to myself  
Safe and sound it seems,  
Didn't sound so safe at all  
And I'll be alright  
Because I've earned these broken bones  
Just don't look down on me  
I had to do this on my own

Break down  
Tell me about yourself  
Is there something I should know?

Don't look down on me  
For what I've done to myself  
Safe and sound it seems,  
Didn't sound so safe at all  
And I'll be alright  
Because I've earned these broken bones  
Just don't look down on me  
I had to do this on my own
