Back then you were a 12-year-old stoner,
You listened to Zeppelin all day,
Zeppelin all day
You thought Jimmy Page was a god.
A double-necked guitar,
A white swan in your arms and swan songs are long.

The Psychedelic Furs were the best band.
They made the '80s melody sad,

Happy and sad
You called me a fag,
You said I didn't know what was rad.
A black shirt ripped in half,
The shirt back read that
"Bela Lugosi's Dead"

"Bela Lugosi Is Dead"
Tell me who that is.
A morphine addict's grin you saw on television.
