lightning up into the sky - I go  
seeing beyond this world - you show  
can I be this honest God - don't know  
this is me, I'm opened up and up and up

drifting up into the light - you show  
moving to a new place - we go  
now have I been so blind - I know  
this is us, we're rising up and up and up

and the mouth opens and closes  
to draw water  
and I'm yearning for your ways  
and my eye draws light  
with which to see  
and I'm yearning for your ways

falling down before your feet - I go  
praying for the saving grace - you show  
covered in the blood you bleed - I know  
this is us, we're opened up and up and up

and the mouth opens and closes  
to draw water  
and I'm yearning for your ways  
and my eye draws light  
with which to see  
and I'm yearning for your ways
