Respeto es una palabra que la necesidad me obligo a
olvidar
Un significado sin origen del cual alguien quisiera
recordar!

Ahora muchos enjambres vienen suplicando algo que
se negaron
A recordar, ahora es cuando yo me obligo a no sentir
piedad!

I spread and beat my wings!
In one side, a blizzard is born and it unleashes men's
throwes
Will out!
In the other, it unleashes a storm full of malevolent
smiles,
Which unleashes centuries of human frustration!

Jahh, jahh, jahh, jahhhhh!

The ones from the first side, roam as predator's
servants
Impatient by gobbe up empty souls!
The ones from the always "wrong called" opposite side
Have been able to open their eyes

They now understand the meaning of respect!
They now can pass to the other side!
Where reason and madness get together in the same
side!
