I don't even wanna be in the club  
Cause all the women show me love  
All I seem to do is think about  
Everything I had before  
I can't blame it on the alcohol,  
And the beat goes on and on  
But all I seem to do is keep thinking about, keep  
thinking about her  
I don't even wanna be in the club

Can't eat, can't sleep, can't think without you here  
The day you left, my world disappeared  
I never wanted us to be over  
Now look at what I did now we over  
I'm standing in the vip cause you're all that I see  
Every time I turn around  
I think my mind is playing tricks on me  
I lost my love and it's killing me  
Said it's killing me  
And that's why I say

I don't even wanna be in the club  
Cause all the women show me love  
All I seem to do is think about  
Everything I had before  
I can't blame it on the alcohol,  
And the beat goes on and on  
But all I seem to do is keep thinking about, keep  
thinking about her  
I don't even wanna be in the club  
I don't even wanna be in the club  
I don't even wanna be in the club

I was in the club, drinking my cup,  
Throwing it up like I didn't give a fuck  
Fronting like I ain't thinking about you  
What am I to do this is ridiculous  
I never wanted us to be over  
Now look at what I did now we over  
I'm standing in the vip cause you're all that I see  
Every time I turn around

I think my mind is playing tricks on me  
I lost my love and it's killing me  
Said it's killing me  
And that's why I say

I don't even wanna be in the club  
Cause all the women show me love  
All I seem to do is think about  
Everything I had before  
I can't blame it on the alcohol,  
And the beat goes on and on  
But all I seem to do is keep thinking about, keep  
thinking about her  
I don't even wanna be in the club
