N the still of the night
I held you, held you tight
'Cause I love, love you so
Promise I'll never let you go
In the still of the night

I remember that night in May
The stars were bright above
I hope and I pray to keep
Your precious love

Well before the light
Hold me again
With all of your might
In the still of the night

So before the light
Hold me again
With all of your might
In the still of the night

In the still... of... the night
