

411**"Invent It All Again"**Visit "[Invent It All Again](#)" on MotoLyrics.com

Iron bridges, melodic chimes
Things I made for you back then.
All these clocks are only marking time
Let's invent them all again.

Folding chairs and building blocks
Magic mirrors to pretend.
Seismographic data in our hearts
Let's invent them all again.

Rocket arrows chart the motion of the stars you see,
Paper money on the go (go go)
Cartographic lines will mark the place for you and me
And we can change the things we know
Yeah, we can change the things we know

Climbing ladders to polar stars

Things I did for you back then
All these fires are only casting iron
I'd invent them all again

Folding chairs and building blocks
Magic mirrors to pretend.
Seismographic data in our hearts
Let's invent them all again.

Water mills conduct the rivers to the wider sea
Lovers moving with the flow
Watch the compass mark the broken lines from you to
me
See, we can change the things we know.
Yeah, we can change the things we know.

I'll remake my works of art
I'll reward your restless heart
