

411**"Land Of The White"**Visit "[Land Of The White](#)" on MotoLyrics.com

I see a land, a land so fair
With oceans so blue and so clean the air
I see a land with no political mess
I see our race having more, not accepting less

This is our land, this land I see
This is our land we're White, Proud and Free
This is our land when we've won the fight..

This is our land, this land I see
This is our land we're White, Proud and Free
This is our land when we've won the fight
This is our land, the land of the White

No Jews in power with money to bribe
I see our people once again having their pride
I see our children learning who they really were
I see the Jewish lies being taught no more

I see our race filled with honor instead of guilt
I see our people now running the country that we built
I see a place united standing hand in hand
I see that we've finally taken back our land
