This life will soon come to an end
I'll leave my convictions

Day by day
I feel this life slipping away
Much further away
I know I've lost it all
Hold out your hands
And take me from my misery
There's no coming back from this
I'll never wake

I'll never wake; I Never

I never wanted to leave you all
I never wanted to leave this life
Nothing can save my now
No one can save me

I was left with no choice

Freedom. My last wish to be
Held on all I could
Free me from this misery
You know I'll never wake.
