Don't call them victims or survivors no more
Disciples of Martha are waging a war!

Small dark and lovely

Her name was Lupe she was just 22
She went to the movies right after school
On her way home she was brutally attacked
Her innocence lost laying flat on her back

Retribution
Will be paid
No more suffering
Give us strength
Our daily blood
Fertilize with sacrifice

Tall dark and lonely

His name was Chester he preyed on the youth
Forcing little children to do things he wanted done
One day while molesting, Scotty bit off his balls
Chomping, chewing then off he crawled

Don't call them victims or survivors no more
Disciples of Martha are waging a war!
