Having breakfast at the pool  
Another boring day  
What's the matter with the world  
Crying just for peace  
Taking care of business  
War for sale  
Rebellion is his fad  
Nowhere in this fucking world crisis looming  
Ghaddy don't fall asleep

Calling all around the world  
Some fascist friends  
Wake up boys my new supply  
A challenge for attack  
For your protection or self satisfaction  
Try chemical offence  
And if you wanna practice  
I deliver factories  
Made in Germany

Master of disaster  
Countdown for showdown  
Master of disaster  
You set the world on fire  
Master of disaster  
The world wants you to retire

High financial underground  
Dreg of society  
Selling toys for a game of war  
Licensed to kill  
To celebrate military overturns  
Includes corrupted minds  
Heading to the final deal  
It's the joker's turn  
Protection from the rear

Master of disaster  
Countdown for showdown  
Master of disaster  
You set the world on fire

Master of disaster  
The world wants you to retire

Having breakfast at the pool  
Another boring day  
He's part of establishment  
Clean to tip of toe  
Taking care of business  
War for sale  
Rebellion is his fad  
Somewhere in this fucking world crisis looming  
Ghaddy you're awake

Master of disaster  
Countdown for showdown  
Master of disaster  
You set the world on fire  
Master of disaster  
The world wants you to retire
