Your hostility doesn't scare us,
We will never return your hatred

Burnishing misconceptions and chimerical inventions
created in the depths
Of your own mind - no foundation in reality
Obfuscate our faith - lost in fanciful tradition (2X).

Our hearts go out to you
We will never fit your rubric
We don't feel a need to try
Our intention is not to offend,
But to carry out this mission and share our dear Father
with everyone
Please understand that we do this out of love
We'll never give up
This is where we belong
We will stand strong.
