We start, sweetheart, over and over again

This could've been the perfect opportunity my friend  
'Cause time fades blood stains  
[That knife for I'm never feel it]  
I know you said it before  
The social fist to the jaw  
I hope you realise that you'll get no sleep tonight

We start, sweetheart, over and over again  
Tongue tie me  
This time we  
All fall apart in the end

[Ladies and gentlemen lets start up the show]

We watch catastrophe unravel turn my friends into foes  
The scene is set  
I'll turn the lights down low  
I've got a real bad habit of letting you go  
I'll stop my nervous fidgiting

We start, sweetheart, over and over again  
Tongue tie me  
This time we  
All fall apart in the end

Woah [Woah]  
Don't let me down now  
Woah [Woah]  
Sleeping with this enemy  
Woah [Woah]  
Don't let me down now  
Woah [Woah]  
Sleeping with the enemy

BABADA

We start, sweetheart, over and over again  
Tongue tie me  
This time we

All fall apart in the end

We start, sweetheart, over and over again

Tongue tie me

This time we

All fall apart in the end
