I stab myself with a rusty knife
My guts are spilling on the floor
I've used the final ticks of life
To even up the score
I don't wanna be your pain donkey, baby
I don't wanna be your pain donkey, baby
Red all over your white carpet
I don't wanna be your pain donkey, baby
I stab myself with a rusty knife
My guts are spilling on the floor
I used the final ticks of life
To even up the score
I don't wanna be your pain donkey, baby
I don't wanna be your pain donkey
It's only make believe
I'm just kidding
No, not true
I'm very much alive
So happy Halloween to you
I eat the eyeball of a dog
The witch's tit is cold and hard
My time has come the banshee wails
I've drawn the deaths head tarot card
I don't wanna be your pain donkey, baby
I don't wanna be your pain donkey, baby
I may be a fool but I'm no mule, baby
I don't wanna be your pain donkey, baby
It's only make believe
I'm just kiddng
No, not true
I'm very much alive
So happy Halloween to you
The chainsaw roars
It's filled with fire
The werewolf howls
The viper stings
A thousand corpses form the choir
To crown the evil zombie king
I don't wanna be your pain donkey, baby
I don't wanna be your pain donkey, baby
It's only make believe

I'm still alive
No, no not true
I'm very much alive
So happy Halloween to you
I don't wanna be your pain donkey, baby
I don't wanna be your pain donkey, baby
Rusty shovel
I'm in trouble
Digging my grave
No soul to save
I'm rotten and relapsing
My body is collapsing
Don't just stand there dammit, dig!
I don't wanna be your pain donkey, baby
I don't wanna be your pain donkey, baby
