(Verse 1)

Look at this mess you've made,
Your, your own attraction at your own parade,
But I guess that's what I get right?
For showing you my love, every single night
And I know it was, and accident,
When he slipped into your bed...

(Chorus)

I try so hard to,
See the good in you,
You make it so hard to,
When I know he's been inside you too...

(Verse 2)

I'm stuck at what to say,
No matter what I did was ever good enough for you

You know what I will do to you,
You know what I will do to you...
I wanna douse you in gasoline,
Light a match just to watch you scream,
You know I'd love you so much more if
You weren't such a whore...

(Chorus)

(Bridge)

Don't cry, Just dry, Your eyes

(Break Down)

OH MY GOD
You think that this,
This isn't done,
Cause I'm still here,
You haven't won...
