Now that you've got over your operation
We've arranged for you to have a well deserved
vacation
We all clubbed together just to round up the fee
To give you a month to sit just watching the sea

Have a pleasant convalescence
We all wish you well

It's ever so sunny with lots of picture windows
Hundreds of aspidistras placed in tidy rows

Nice friendly people and there's plenty of tea
I'm sure that you will like it, how I wish it were me

No time to get bored, there's conversations
Discussing the minor detail of everyone's operations
You can take it easy and your bed will be made
At nine o'clock every evening they serve Lucozade
