

411**"Power Of Mind"**Visit "[Power Of Mind](#)" on MotoLyrics.com

The world on fire!

You see the eyes are burnin and the soul will fly
Do you see the sign?
Spiritual wickedness we overhigh

Don't you leave behind
Don't you give it up, live it up one more try
Feed your soul and mind
And disya spiritual wickedness we override
Do you see the sign?

Your power of mind, your power of mind
A straight from inside

Self control through this depression - your power of
mind
Self control through operation - your power of mind
Self control cause it's a mission - your power of mind
Self control, self control

Yes I woke up one bright morning
Pain & suffering have gone away
Sun is shining brightin' up my way

So I clear my mind of from all those
Worries, pain & stress along the way
Life before me maybe just today
You never know...
