Calling in silence, deep in our souls
Hunger grows more
It lightens our way higher up to the goal

Chorus:
(We'll stand up and fight!)
The vision is clear
(We'll ride through the night!)
Without any fear
'Cause

Chorus2:
Louder and faster with power we play
This raging machine is blocking your way
We're crushing you under and you will become
The one who survives and never lets us down
You'll stand on our ground

Hearts on the run, we are always alone
Longing for home but never give up, we are here to be
shown

Chorus:
(We'll stand up and fight!)
The vision is clear
(We'll ride through the night!)
Without any fear
'Cause

Chorus2:
Louder and faster with power we play
This raging machine is blocking your way
We're crushing you under and you will become
The one who survives and never lets us down
Together we'll rule,
And forever you'll stand on our ground

Chorus:
(We'll stand up and fight!)
The vision is clear
(We'll ride through the night!)

Without any fear

Chorus2:

Louder and faster with power we play
This raging machine is blocking your way
We're crushing you under and you will become
The one who survives and never lets us down
Together we'll rule,
And forever you'll stand on our ground
