You will be assimilated

Through sci-clone eyes you will see
No compromise you will be free
To realise your destiny
No sacrifice come follow me

You're not machine
You're not human
You have no thoughts
Of your own
Just a small part
Of a network
Take a number
Follow me

The future hides our history
In sterilised security
Lobotomised, dehumanised
Through sci-clone eyes you will see

Assimilate, assimilate
You're not machine
You're not human
You have no thoughts
Of your own

Through sci-clone eyes you will see
No compromise you will be free
To realise your destiny
Lobotomised, dehumanised
Through sci-clone eyes you will see
