[Chapter I: Gathering Of The Damned]

The love of Shadowhall  
The curse of Shadowhall

[Chapter II: Under The Bloodmoon]

It's the legacy of my family,  
We've been sleeping well for a decade  
Our breed is doomed, a family affair  
Time to wake up, it's a new decade

No use in trying to break the chains,  
We're bound to this evil curse  
There's just one thing to keep us alive  
A young girl's blood to feed the curse

Alive Under The Bloodmoon, The Bloodmoon  
We are the living dead  
Alive Under The Bloodmoon, The Bloodmoon  
The dream of the living dead  
Alive Under The Bloodmoon, The Bloodmoon  
We are the living dead  
Alive Under The Bloodmoon, The Bloodmoon  
The dream of the living dead

The time is now for my tribe to come  
And gather around for my wedding  
Can't wait to meet my dying bride  
She'll live forever after our marriage

A deadly kiss and she'll be mine,  
The special guest for our feast  
Her blood will feed the hungry breed  
Come be my guest, come join the feast!

Alive Under The Bloodmoon, The Bloodmoon  
We are the living dead  
Alive Under The Bloodmoon, The Bloodmoon  
The dream of the living dead  
Alive Under The Bloodmoon, The Bloodmoon

We are the living dead  
Alive Under The Bloodmoon, The Bloodmoon  
The dream of the living dead

[Chapter III: Open The Gates]

It's time to welcome the family  
They've been hiding in their graves  
Been such a long time, long time -- no see  
It's time to open the gates

So come on in and join the feast with me  
You have been resting for too long

I'm serving fresh blood for you and me  
The silvermoon, she makes us strong

Open The Gates, let them come in  
They've been sleeping for too long  
Open The Gates, let them join in  
It's good to see you, come on!

Hundreds of years, hundreds of gatherings  
We have to do this to live on  
I am the keeper of the vampire flame  
Trust in me, and you'll live on

And if you ask of my opinion  
It's a blessing, not a curse

I am immortal, I am the holy one  
So tell me, how can this ever be a curse?

Open The Gates, let them come in  
They've been sleeping for too long  
Open The Gates, let them join in  
It's good to see you, come on!  
Open The Gates, let them come in  
They've been sleeping for too long  
Open The Gates, let them join in  
It's good to see you, come on!

[Chapter IV: Shadowhall]

Have a seat, you may sit down,  
Nice to see you all around  
But don't expect exotic fish  
I serve a very special dish.

I may now introduce to you  
The girl, I will get married to

Although I haven't met her yet  
For sure, she'll be my perfect pet

She's so young, oh, she's so sweet  
Innocent blood, will be our sweet drug at midnight

I'll give her love, I'll bring life  
She'll be my wife -- an immortal existence

So long I've been waiting,  
So long I've been yearning  
So long I've been starving for blood

The beast deep within me  
Is trying to break free  
A hunger I just cannot stop

So long I've been waiting,  
So long I've been yearning  
A dream full of satanic lust

The beast deep within me  
Is trying to break free  
Good, clean entertainment, that you just can trust!

You're the girl of my dreams  
I will kiss away your fears  
Be my bride, stay with me  
Hear my call  
Stay with me, by my side  
Be my one beloved bride  
Be the lady for Lord Shadowhall

You're the girl of my dreams  
I will kiss away your fears  
Be my bride, stay with me  
Hear my call  
Stay with me, by my side  
Be my one beloved bride  
Be the lady for Lord Shadowhall

I can feel my wild heart beat  
Oh yeah, by far, she's way too sweet  
And when I touch her golden hair  
It makes me shiver everywhere

Maybe, I'd tame the beast in me  
This time not to be running free  
What is this thing, that I do feel  
Inside a dark heart, love is real

Shadowhall  
Shadowhall  
Shadowhall

[Chapter V: Vampire's Ball]

C'mon babe, c'mon babe and dance with me  
I show you love for the whole world to see  
I will never, never ever leave you  
Leave you again, my dear

Oh, this love is forever  
What I've been waiting for  
Oh, love until the end of never  
So true, so deep for sure!

Oh, this love is forever  
Oh, what I've been waiting for  
Oh, love until the end of never  
More than lust, I never wanted more!

C'mon babe, c'mon babe and dance with me  
We're one, you're the center of the world for me  
Let me hold you, never lose you  
Never ever do you no harm...

Oh, this love is forever  
What I've been waiting for  
Oh, love until the end of never  
So true, so deep for sure!

Oh, this love is forever  
What I've been waiting for  
Oh, love until the end of never  
More than lust, I never wanted more!

The love of a vampire

C'mon babe, c'mon babe and dance with me  
I show you love for the whole world to see  
I will never, never ever leave you  
Leave you again, my dear

[Chapter VI: Hell Dimension]

I see it so clear, now is the time to break from the  
family tradition  
Break from the curse, break all the chains, find what  
we've always been missin'  
This girl is the healer  
The prophet of change

Now is the time  
To rearrange

I -- was blinded by life without love  
I -- needed a little help from above  
Now -- don't tell me 'bout our destiny  
Now -- now is the time to shake free!

Fight this evil -- escape from this hell dimension  
Trust your feelings -- they lead you from hell dimension  
Fight this evil -- escape from this hell dimension  
Trust your feelings -- they lead you from hell dimension

I look in their eyes, but all I can see, is hatred and  
hunger and fever  
They don't understand, just what I have found, I am a  
true believer  
I'll be your messiah  
The prophet of change  
Now is the time  
To rearrange

I -- was blinded by life without love  
I -- needed a little help from above  
Now -- don't tell me 'bout our destiny  
Now -- now is the time to shake free!

Fight this evil -- escape from this hell dimension  
Trust your feelings -- they lead you from hell dimension  
Fight this evil -- escape from this hell dimension  
Trust your feelings -- they lead you from hell dimension

[Chapter VII -- Love Under Ice]

All that I have loved, all that I have truly believed in  
All hope is gone, killed by my very own breed

I'm buried alive, frozen, not killed here under the ice&  
So deep  
Under the ice

She's lying beside me, this is our love under ice  
Love under ice  
Love under ice  
Love under ice
