Inner activity processing the pain  
Honour, pride creates agony  
Injecting the strain (faithless) and senseless minds  
Will soon gather to witness a new perception

Why did they choose me? Why did I fall?  
Hate, delusion brings nothing but fear  
Conquer the throne, release my deepest anger  
Let war lead us to doom and find peace among the  
dead

Salvation - Demise - Inflicting the pain among the  
sinners

[CHORUS]  
Standards of Perfection  
Inhuman Machines  
Standards of Perfection  
Unknown prophecies

[SOLO: Ana Prestes]  
[SOLO: S?rgio Vilas]

Summon the demons crawling inside me  
Ripping, leaving my body's remains  
Cover your eyes (faithless) open your mind to them  
Fear me! Hate me! Feed me! I am God!

[CHORUS]
