My heart is a sucker for love
It keeps promising more
It keeps leaving me with nothing

My life as a wannabe
It's not always perfect but I like it a lot

Time after time I question myself
Why do I find nothing
Time after time

So I keep asking how could I change
But the answer
It means time after time

My heart is wild and free
Because it's easier to be
I know it's too late to change
Because it's easier to be

My heart is a black box
I'll do the after math
I'll survive the crash
My life in a nutshell
I'm crazy enough not to worry
About tomorrow

Time after time I question myself
Why do I find nothing
Time after time

So I keep asking how could I change
But the answer
It means time after time

My heart is wild and free
Because it's easier to be
I know it's too late to change
Because it's easier to be

My heart is wild and free

Because it's easier to be
I know it's too late to change

Easier to be

My heart is wild and free
Because it's easier to be
I know it's too late to change
Because it's easier to be

My heart is wild and free
Because it's easier to be
I know it's too late to change
