Once again...
Grayscale at night, again it's our night
Gather around, behold
Three feet above you, the time has come
Gather below and hear
Fill you lounges with the smoke
Fill your mind with the atmosphere
On stage tonight, your very own nightmare
Feel the might of the Naggaroth Nightmares
We slap you with terror, aggression and majesty
Rumble around, let's go
Feel the adrenalin rush, we do this for you
Rumble around and go
Fill your lounges with the smoke
Fill your mind with the atmosphere
On stage tonight for your total welfare
Bestowing upon you an incarnated nightmare
And again...
Empty your lounges of the smoke
Clear your mind from the atmosphere
We're through for tonight but we'll see you again
Grayscale at night is our place and time
On stage as always, bestowing upon you
Feel us inside, experience the might
See us above, feel us inside
Experience the might of the nightmares from
Naggaroth
