Destination sunshine destination love
Destination you and I and the eye in the sky
I wanna stay in Paradise don't wanna go on home
I wanna tell a million lies don't wanna be alone

I got two things in life
You and I
I got one thing I know
I'm taking it slow, yeah

Gonna say goodbye to rainy days forget what ain't my
dream
Say goodbye to lonely days and say hello to me
And if you say you love me and if you say you need me

I'll take classes in your school yes I will

I got two things in life
You and I
I got one thing I know
I'm taking it slow, yeah

I got two things in life
You and I
I got one thing I know
I'm taking it slow, ahhh taking it slow

I got two things in life
You and I
I got one thing I know
I'm taking it slow, yeah...

... I've got two things...
