Ruge la tormenta nocturna  
Liberando las raices electricas  
Que desencadenan la mortal descarga

Diabolic chords acclaim the goat  
By the shrieks of the Beast  
Hell melts the metal black  
Hordes of chaos emerge from the pentagram  
With white faces marked with damned scars

Las imagenes sagradas son destruidas  
Por los poderes oscuros  
Megaliticos tormentos son infringidos

Sobre las costumbres catecumenicas  
Estableciendo los dominios no-sacros  
Ribeteados de cuero y acero los caballeros paganos  
Desatan euforicos su ira ante la masacre sonica

Blaspheming against written hymns  
Taking the purified fire that destroys  
Religious temples which infect the Earth  
Clandestine rituals go on through darkness  
The torch of punishment burns  
Destroying idols' pictures
