[Rev. Mike "The Faith" Simmons:]
Life... Life can deceive when you're falling in love
Light... (Light...)
Our weakness revealed and I can't let it be...

Lost and led astray, I'm ready to fall
But it just can't be this way

[Dr. Robert "The Science" Richards:]
Hold on to the edge of your life
Codes and combinations to open your mind

[Dave "The Friendship" Maxwell:]
I've got a feeling you just can't believe it
Knowing may bleed you dry

[Tommy "The Touch" Wolf:]
The light... The lie that I feel...

[Mike:]
Lights out!

[Tommy:]
Nobody's there for me... (Nobody's there for me...)
Nobody makes you fall... (Your fall...)
There is a path we walk on by

See the Country Fair waiting for me
I remember my last day of a life that was meant to be
right, perfect and
Flawless... That was a lie

I'm never complaining, I keep on trying
Not bad is not so good

The light... The lie that I feel so close

[Mike:]
Lights out!

[Tommy:]

Nobody's there for me... (Nobody's there for me...)

Nobody makes my day... (My day...)

There is a path we walk on by

[Mike:]

Pledge your gift, take my sage advice

Lights out!

[Jennifer "The Devotion" Michaels:]

Nobody's there for you... (Nobody's there for you...)

Nobody waits for your call... (Your call...)

You're climbing these walls of sympathy

Afraid of the dream

I want you to know, I want you to know me... (Get to know me...)

Don't see any clouds... Don't fall, seek the truth you once lost

[Mike:]

Life... (Life...)

Life can deceive when you fall... (When you're falling...)

Light... (Life...)

Your weakness revealed, let it be

[Tommy:]

Fallen between two hearts, no one can see how I'm striving

And the times that we had have become my release here... Yeah!

[Mike:]

Life... Life can deceive when you're falling in love

Light... (Light...)

Our weakness revealed and I can't let it be

Light... Light... Light can deceive when you're falling (Light can't deceive when you're falling)

Lights out!

[Tommy:]

Nobody's there for me... (Nobody's there for me...)

Nobody makes my day... (My day...)

There is a path we walk on by

[Mike:]

Pledge your gift, take my sage advice

Lights out!

[Jennifer:]

Nobody's there for you... (Nobody's there for you...)

Nobody waits your call... (Your call...)

You're climbing these walls of sympathy

[Mike:]

Lights out!

[Tommy:]

(Nobody's there for me... Your fall...)

There is a path we walk on by

I'm filling the lack of faith

[Mike:]

Lights out!

[Jennifer:]

Nobody's there for you... (Nobody's there for you...)

Nobody waits for your call

You're climbing these walls of sympathy

Afraid of the dream...
