Reggae come fi preach dem bout the armaggideon
Conspiracy is broke still dem propaganda strong
Blessed is the livity and the curse can't undone
Music is our mission and our mission must be done
Rummors dem a spread out in disya time
EB dem a wana see flop
Corupted ugly minds leading the blind
Advertising all kinds of crap

War to dem media they need us they need ya
Going around, scandal our name
They increase destruction, and deal with corruption
But truth will reveal someday

Three in one
