Can't you see what's going on today  
Everyone but us has their say  
You can sing about murder, rape and drugs  
But when it comes to white pride your voice is shunned  
You can be proud to black and proud to be brown  
But if you're white you're taught to feel down  
This is the reason for our songs to instill a sense of  
Pride that so many long

Parental Advisory we speak the truth  
Explicit Lyrics of realistic views  
Freedom of speech is hypocrisy

They try and censor our music nationally

It's thought control imprisonment of the mind  
Force-fed bullshit facts and lies  
"Free your mind" you hear on Mtv  
And expand your thoughts with diversity  
But your mind is not free if you're told what to think  
Rather than expanding your mind starts to shrink  
Mainstream or not my voice will be heard  
And open up the eyes of the brainwashed blur
