Inspired by your cultural heritage  
You think your status will improve  
If you live for your libido and shag around like rabbits  
do  
Is it your destiny?  
Is it your duty as a man  
To screw around and breed  
As many offspring as you can?

White Fluid Rebel

Incest in progress,  
Let your sperm freely flow.  
Fill 'em up with alcohol,  
And they will never know  
The father of the child they bear,  
Who turned their lives into hell  
You generously donate your gift into somebody else!

You scandalize the innocent, penetrate the young  
They spread their legs for you  
And you dump them when you're done  
I don't say something's wrong with sex  
But to me there's nothing worse  
Than the principles you practice...  
Unless you're a bonobo of course
