I can tell it's gonna be
Another night alone
And I don't have the energy to go out on my own
When you're gone, I just want to hide
I can't go on,
Til you're here by my side

But I will never give up, I'll never give up
I'll never believe that love just fades away
Never give up, I'll never give up
I'll never give up
I'll never give up

In the middle of the night, I wanna reach for you
I'm so uneasy when you're gone
I don't know what to do
It's so hard just to go downtown
I'm not happy
Til I'm home safe and sound
