"Splashin Rain"

Visit "[Splashin Rain](#)" on MotoLyrics.com

If you fall down and die
you'll be a star in the sky
and when the rain starts to fall
you'll be splashing around us all

little girls crack and they break
you know I know her name
and she's dancing upstairs
with all the angels that once lived here

[chorus]

falling down in the up
flying high on the breeze
god bless all of us
count your blessings on your knees

and all the gods are having a ball
I'll be attending it all
happy, happy, to see me
on the day when the stars are free

[chorus]

If I fall down and die
I'll be a star in the sky
and when the rain starts to fall
I'll be splashing around you all
