Everywhere I go, I see your face,
In the light and the darkness that takes place,
Everytime I see you, I'm somewhere else,
Just like taking a book right off the shelf...
Do you know what else goes on, Cause it's running me
down

[Chorus]

I'm fine just being alone,
I'm fine just being a friend,
I'm fine going out on my own,
I'm fine and will be 'till the end of my life, 'till the end of
my life.

Sometimes I fell like I have made a mistake,
When I met you, it's worth everything I take,
In the past, I see everything I know,

In a place that's been gone, but long ago...
Do you know me, why not tell me why or why not

[Chorus]

Everywhere I go, Every where I see,
Everything I know, Everywhere I'll be,
Everytime I see you there next to me.

Everytime I try, to get over you,
You know I'll be fine, Without you,
Everytihng you once told me was never true.

"Till the end of my life (Repeat 2 times)

I'm fine knowing you won't be there with me (Repeat
twice)

"Till the ned of my life
