

An Awkward Symphony "Burn The World"

Visit "[Burn The World](#)" on MotoLyrics.com

This is the fall of human kind
Look at us killing our blood and selves
We can barely find a way to stay alive
Is this earth just the deepest pit of hell
A black blanket covering our hearts
There's nothing left in this world of misery

The rich and the powerful are the blind
Those suffering see what is really happening
We need to pull our breed together and live
We need to stop before hope is extinct
How can we bathe in the blood of innocence
Is the stench of bloodshed so ordinary?

[PRE CHORUS]

Save all your prayers
It's the end today
Another one dies
The world moves on

[CHORUS]

Look what's happening around you
Not much before it crumbles
Listen in silence as everything falls
But be cautious to the deafening crash
[CHORUS END]

Our lives are the breeding ground of chaos
It's an endless vacuum of destruction
The only thing we truly love is killing us
But as much as we like to think it will
Nothing is going to save us like we think it will

Nothing can save us from ending
So let's just make the pain shorter and burn it down

[CHORUS]

Look what's happening around you
Not much before it crumbles
Listen in silence as everything falls
But be cautious to the deafening crash
[CHORUS END]

So lets do what we were intended to do
The beginning of the end has already started
Consume the world in fear and hatred
Lets burn the world to ashes, start the ending riot
This bloodshed is futile, Burn the world
The bloodshed is futile, Burn the world

Life is just a plague that is coming to an end
It's something we are all infected with
We wish to live as gods and choose who lives and dies
But another virus rises, the death of our own kind
Lets end it before it comes now listen to my words
Burn the world to ashes, the melody out of time

[CHORUS]

Look what's happening around you
Not much before it crumbles
Listen in silence as everything falls
But be cautious to the deafening crash

[CHORUS END]
