It's all right here, It's all right here.
A Situations pointing to what I should have known
But what I've always known
Is I know you, but I don't want to.
Can you believe what you said to me
It's like I like you, but I don't want to.

Now I've come to realize
Come on just realize
That I won't take this anymore

The way you lie, look into my eyes.
And said it's over, over.
No I can't hide as you walk beside me
For the last time, it's for the last time.

Oh how you showed me
How not to be, and how not to be
When every word you say gets everyone you've known
away

Keep quiet cause' no one wants to hear you speak

The way you lie, look into my eyes.
And said it's over, over.
No I can't hide as you walk beside me
For the last time, it's for the last time.

Keep quiet, keep quiet cause' no one wants to hear you
speak.

The way you lie, look into my eyes.
And said it's over, over.
No I can't hide as you walk beside me
For the last time, it's for the last time.
