"What Could I Do?"

Visit "[What Could I Do?](#)" on MotoLyrics.com

Yeah, come here boy

Heard you've been messin' with those other girls
Then you call me, and try to act so cool
You have your cake, but you can't eat it too
I need commitment, like I commit to you

My heart wants you to want me
Don't need no sympathy to keep your company
I want your love beside me
Only if loves means to you
Something that we both could choose

What could I say to you?
It's not a game I'm in love with you boy
What could I do to you?
To make you see what you've put me through

oooh, oh yeah

You never know what you've got to say
Until you lose it, and then it's much too late
You better get yourself on treat my love
Because forever I'm not gonna wait

My heart wants you to want me
Don't need no sympathy to keep your company
I want your love beside me
Only if loves means to you
Something that we both could choose

What could I say to you?
It's not a game I'm in love with you boy
What could I do to you?
To make you see what you've put me through

My heart wants you to want me
Don't need no sympathy to keep your company
I want your love beside me
Only if loves means to you
Something that we both could choose

What could I say to you?
It's not a game I'm in love with you boy
What could I do to you?
To make you see what you've put me through

Nothing I can say, Nothing I can do,
My heart just feels for you

What could I say to you?
Yeah, yeah
What could I do to you?
Don't need no sympathy
What could I say to you?
What could I say to you, baby?
My heart wants you to want me too
Oh, baby
What could I do to you?
Oh, ahh
Don't need no sympathy
ahh, ahh
